HENRY BIER, SECRETARY AND TREASURER,

J. D. FOSTER, RESIDENT SURGEON,

A. R. NYE, ASSISTANT SURGEON,

H. VANDERLINDEN, CLERK.

REPORT OF THE BOARD OF ADMINISTRATORS.

To the Hon. Senate and House of Representatives
of the State of Louisiana.

The Board of Administrators of the Charity Hospital, of New Orleans, most respectfully submit, herewith, the accompanying statements, setting forth the condition and affairs of the said Institution, for the year 1852.

Very little change has taken place in the general condition of the Hospital since the date of the last report made to your honorable bodies by this Board, and the suggestions and recommendations offered by us then, may, with propriety, be urged now. The same evils and inconveniences, pointed out in that report, still exist, aggravated, perhaps, by the lapse of time, and must continue to exist until either State or Municipal relief be administered in some form or other. The principal points to which we called your attention, when we last had the honor of addressing you, were—

1st. The necessity of procuring the passage, by Congress, of an act to facilitate the collection of ~~the~~ tax on passengers.

2d. The extensive repairs necessary to be done to the Hospital, requiring an early appropriation, &c.

3d. The means of obtaining a *gratuitous* supply of water, or some arrangement whereby the tax of \$500 a year, imposed by the Water Works Company, may be averted.

4th. The absolute necessity of establishing some institution, in the suburbs of the City, combining the properties and advantages of an *Alms-House* and *Hospital*, for the reception and treatment of contagious diseases, such as *small pox* and *ship fever*; the care and entertainment of *helpless and incurable pauper* invalides; &c.

5th. And the propriety of further provision for the reception and treatment of the insane, &c.

It is needless here to renew the reasons which render it imperatively necessary that the earliest measures should be taken to remedy the evils and provide for the exigencies above stated. They were fully urged in the Report alluded to, and to avoid repetition, we content ourselves, here, with referring to that document for the arguments adduced in support of them.

In regard, however, to the absolute and pressing necessity of repairing, and to a certain extent, renovating the main building of the Institution, we would observe that its very dilapidated condition is a source of no inconsiderable uneasiness to the Board. With the view of ascertaining correctly the extent of the injuries, which constant use and a long lapse of time have necessarily wrought, we have caused a survey to be made of the whole edifice, by two skilful and experienced architects, and the result will be

found in a report made by them to this Board, which is hereto annexed, and to which your particular attention is earnestly called. It may not be amiss, also, to direct your notice to the annexed extract from the last Report of the Grand Jury of the Parish of Orleans, wherein, among other matters, these very repairs are especially mentioned, and prompt action in regard to them strongly urged and recommended.

It is very clear, that evils like these, to be effectually remedied, should be promptly taken in hand, and, in the present instance, the question is one not only of economy, but also of humanity—as further delay would be productive of the most injurious consequences to the unfortunate inmates, whose successful treatment must, in a great measure, if not entirely, depend upon proper protection and security from the inclemencies and vicissitudes of the season and weather.

By reference to the statements and tables hereto annexed, it will be seen, that during the year which has just expired, (1852),

The aggregate number of Patients admitted was	18,035
Ditto ditto discharged,	15,057
Ditto ditto died,	2,098
The cost of maintenance of the Hospital, for the year, was	\$59,032 98
Whilst the payment and expenditure amounted to	84,982 32
The gross income for this year, including the State appropriation, was	89,252 01
The debts due by the Hospital, 31st December, 1852,	11,001 94
The debts due to the Hospital, " "	26,680 38
Number of Patients from Foreign Countries,	16,144
Ditto ditto United States,	1,709
Ditto ditto unknown,	181
Of which number, there were from the State of Louisiana	248

These statements and tables establish, beyond all doubt or question, the vast importance of this interesting Institution to the State, and, particularly, to the great commercial mart in which it is located, and demonstrate, also, most clearly, the necessity and expediency of suffering no means to be neglected or overlooked, whereby its usefulness and efficiency may be sustained and promoted. That the demands upon it must continue gradually to increase, is evident, when we consider the ever swelling tide of immigration that is constantly flowing towards our shores; in view of which, and for the reasons before suggested, the Board of Administrators are emboldened to hope that your honorable bodies will be induced to give early and due consideration to such measures as may be necessary to attain the salutary ends herein respectfully intimated.

We cannot close the present Report without bearing testimony to the zeal and efficiency of the physicians, surgeons, and the several officers connected with the Institution. They have been ever prompt and diligent in the discharge of their respective duties, and are, in every respect, fully entitled to commendation. To the Sisters of Charity, officiating in the Hospital, are also, especially, due our grateful acknowledgments. Their devotion to the cause of the sick and suffering, is already well known, but when carried, as it has been in their present service, even into the jaws of death and self-sacrifice, we cannot but feel that this world is too poor to meet out to them their just reward.

All which is most respectfully submitted.

HENRY BIER, *Secretary.*

H. B. CENAS, *Vice President.*

NEW ORLEANS, January 1st, 1853.

To the Administrators of the Charity Hospital:

Gentlemen:—We have made an examination of the main building of the Charity Hospital in order to form some estimate of the repairs necessary to be done, to place it in proper order, and would respectfully suggest the following:

New Floor in Principal Story,
 Repairs to Floors, &c., in Second Story,
 Repairs to Cornice, and Copper Work, and Gutters all round the Building,
 Repairs to Rear Galleries, New Floors and Iron Columns to the same.
 Repairs to Roofs, Belvidere, &c.,
 Repairs to Circular and other Stairs,
 Repairing Plastering—inside and outside,
 Painting—inside and outside; also, some Repairs to other Buildings, and Painting,
 Whitewashing, &c.

The above will probably cost \$14,000.

Very Respectfully,

Your Obt. Servants,

GALLIN, TURPIN, & CO.

SHEPPARD REYNOLDS.

STATE OF LOUISIANA : }
First District Court of New Orleans. }

CHARITY HOSPITAL.—It was with a feeling of pride and gratification that the Grand Jury made their visit to this noble charity, an honor to the State of Louisiana and the City of New Orleans. We reiterate, without any qualifications, the sentiments expressed by our predecessors in regard to the management of this Institution. Its interior police is faultless; every department is kept in most cleanly order, and order and system universally prevail. It contains at present 980 patients, who have the best of attendance. The front building needs immediate repairs: nearly the entire roof is in a leaky condition, and the galleries are in a very decayed state. The supply of water is abundant and the Institution is provided with a steam engine of sufficient power to throw water on the top of all the surrounding buildings in case of fire; but there is a deficiency of hose, which would be a serious want in case of emergency.

Children are often brought to the Hospital by their parents, who never reclaim them. They are too young to be cast loose upon the world, and they are consequently retained in the Institution. Some provision should be made for their admittance in the Asylums or Houses of Refuge.

I hereby certify the foregoing to be a true and correct extract of the report of the Grand Jury, filed in this office on the 24th December, 1852.

Clerk's Office, January 3d, 1853.

N. TREPAGNIER.

By Clerk.
